

JERRY HERSHBERGER FARM - New Enterprise, PA

PURINA MILLS DAIRY PROGRAMS

ADD
NEARLY

2,100 LBS. of MILK

Jerry Hershberger owns and operates a 130 cow dairy located in the heart of the Morrison's Cove at New Enterprise, Pennsylvania. In October of 1989, Jerry began working with Purina Mills and his local Purina dealer, Bedford Farm Bureau to improve the performance of his herd.

Mr. Hershberger feeds a total mixed ration balanced for 65 pounds of milk production. The current ration includes corn silage (60%), haylage (40%), 3.5 pounds

hay, and 12 pounds high-moisture ear corn. The balance of the ration is a grain mix containing Purina Maxi-Tech 32 FF, soybean meal, shelled corn, and additional minerals and buffers. The grain mix is formulated by local Purina Dairy Specialist, Rob Hinton, and is provided by Bedford Farm Bureau. Cows producing 70 pounds of milk and above receive Purina's high-energy Ultimate EXT 24 from a computer feeder.

DHIA Production Information From The Jerry Hershberger Herd:

DATE	# COWS	RHA MILK	% FAT	RHA FAT	% PROTEIN	RHA PROTEIN
10/89 - Started Purina Program	125	19,972	3.5	692	3.1	619
3/93	131	22,066	3.9	860	3.1	681

Jerry Hershberger Shares A Few Comments About Feeding Purina's **ULTIMATE EXT** During The Past 9 Months

- "I feel my cows are in better body condition than before. My heifers used to milk better than my mature cows because I couldn't keep weight on them... this isn't the case with Ultimate EXT."
- "Palatability is extremely good on EXT in my computer feeder."
- "My herd health and breeding have been good considering the lack of energy in poor quality forages and grains this past year."
- "Peaks and persistency are excellent. Our current tank average is 76.2 pounds per cow."
