

Feed Car Compact Increases Profitability

KANSAS CITY, Mo. — Designed for the stanchion operation with minimal clearance between stalls, ceiling and walls, the FeedCar Compact™ from Alfa Laval Agri delivers all the advantages of automated feeding.

The FeedCar Compact dramatically reduces the backbreaking labor associated with feeding in an old or small stanchion barn or tie-stall operation. Considering that 40 to 50 percent of the total cost of producing milk is directly attributable to feeding costs, an exact and

controlled feeding has substantial impact on total profitability.

The FeedCar Compact automated feeding system dispenses the correct grain ration for each cow up to nine times a day. It allows the user to match the cow's intake to her stage of lactation to optimize production over the course of her lactation. Every one pound increase of milk at peak yield can represent up to 200 pounds of increased production over the course of her lactation.

Ultimately, this type of exact,

controlled feeding results in a healthier herd that converts more milk from each pound of feed. With the FeedCar Compact, it's actually possible to produce more milk with less feed.

The FeedCar Compact shares the same micro-processor as its larger counterparts, the Stanchion-Master® and the FeedCar II, which enables dairymen to control feed consumption by cow or by herd. The FeedCar Compact offers an easy-to-use and well-proven computer design. Its durable,

all stainless steel construction ensures long life and low maintenance.

Ideally suited for operations with 30 to 60 cows, the FeedCar

Compact is available exclusively through Alfa Laval Agri's network of more than 300 independent Alfa Laval Agri dealers.

Farmers in the Know, Know Oswalt®

■ Oswalt® Polygon Mixers

The new "1000" Series design, with its superior horizontal drum and waterfall mixing action, maximizes your TMR results with an outstanding quality of mix.

■ Oswalt® TMR Roughage Masters

These rugged four-auger mixers can process and mix your ration—including dry baled hay—into a fully blended TMR... —better than anyone! And they're known for their tougher design, greater value, and an unequalled quality of mix.

■ J-Star® Electronic Scales

Dependable, with an accuracy rate of 99.5%, J-Star's new EZ Series of indicators give you total control of your feed rations. And they're EZ-ier to use, with more features & functions.

**The
Feedroom
& Mixer Experts**

Your Oswalt® Dealer is a feedroom and mixer expert. And he can help you get the most from your TMR feeding program.

Oswalt Dealerships are one-stop-shops for a full line of Jamesway® feeders, conveyors, silo unloaders and electric forage carts. Plus he handles Oswalt auger and drum mixers in capacities from 70 to 747 cu. ft.

Need some ideas on how to get more out of your feeding setup? Then it's best to check with an expert, and farmers in the know, know Oswalt!
