HYDRA-SPREAD

HYDRAULIC PUSH-OFF MANURE SPREADER

Single or two beater designs. Aggressive, high-speed beaters - with up to 15 paddles per beater - deliver a fine uniform spread. Replaceable bolted paddles on main beater

Snug-fitting end-gate controls sloppy or granular manure.

Polyethylene sides and bottom containing 90% re-cycled material. Guaranteed for the life of the spreader.

Simple and reliable single-stage push gate for dependable, trouble-free unloading. Centre-guided design eliminates jam-ups.

Optional slurry pan prevents spills. Controls sloppy or fine materials for even finer more uniform spreading.

Optional side-panels increase capacity and protect the box.

Precision metering valve for infinitely variable unloading from 0 - 8 fpm.

Simple, dependable power train. Every shaft (even the upper beater) is splined for efficient power transmission and long life.

Fully shielded PTO with overload protection.

Truck type or flotation tires to suit your needs.

Clean design. No obstructions to hold manure.

Driveline and gearbox are safely contained within the frame - under the floor. Easily serviced and repaired.

Hydraulic cylinders are installed above the floor. Always accessible - always easy to clean and service.

Strong, all-welded frame with heavy structural tubes. All structural members are high-strength steel.

MASSEY FERGUSON

Leveling your hills.

The optional Hillside Cleaning System automatically swings the top sieve sideways, against the slope of the hill. This keeps grain spread out evenly for cleaner grain samples.

You get full performance on slopes up to 20%, without the big expense of a hillside combine.
