**CONCRETE REASONS WHY A NEW
POURED CONCRETE SILO
IS YOUR BEST INVESTMENT...**

- A. Enhancement of cash flow. Improved forage quality results in consistent, and increased milk production.
- B. "Safe Silo" Our silos meet or exceed industry standards, reducing/protecting lender liability.
- C. Initial Cost. Used or cheap pre-fab silos may have a lower initial cost, but based upon useful life, the new poured concrete silo will have a lower annual cost: due to longer life and lower maintenance costs.
- D. Residual Value. Our new, poured concrete silos are built for "generations of use", and enhance the future value of the farm.
- E. Storage Losses Reduced. Poured concrete silos consistently out-perform all other methods of storing and preserving the total digestible nutrients in forage crops.
- F. Protecting Forage Quality. Oxygen and heat cause the most damage to stored silage and haylage. Our poured concrete silos are the very best system to PROTECT YOUR FORAGE QUALITY... "NOBODY PROTECTS FORAGE QUALITY LIKE WE DO...NOBODY"

"This is the kind of silo you need to protect your valuable feed."
