CHORE-TIME Ultraflo® feeders

More Than 230 Ultraflo® Systems Have Been Sold In The Northeast Since 1985 - That's Over 16 Million Birds!

CHORE-TIME

NOW!
New ULTRAFLO® II trough design means even more feed savings over chain feeders

Over 80% of the nation's top egg producers have already switched to Chore-Time cages with **ULTRAFLO® Feeders!***

Here are the facts why **ULTRAFLO®** outperforms chain feeders

FEED SAVINGS. Customers report 1/2 to 2 lbs. per 100 birds/day—over \$10,000 per year saved on a 100,000-bird house. Year after year!

TROUGH DESIGN. High tensile steel for strength. No feed buildup or waste like chain trough.

NO HI-GRADING of feed, due to our design. Chain lets birds pick over feed while feeder runs.

REMIKES FEED. Our auger slowly revolves, keeping old and new feed blended. Chain doesn't, so feed can get stale.

REPAIR & MAINTENANCE. Ours needs the least of all feeders. Easy splicing with auger connector, and no troublesome corners or chain guides to replace. Saves money and time year after year.

SIMPLE OPERATION. "Push-Pull" Power Units with low HP motor are located along the feeder line as needed. Have hardened steel gears for trouble-free life. Microprocessor control lets you program feeding time to the second.

EASY AUGER CONNECTOR. Allows fast and simple installation, also quick and easy repair of auger if ever necessary. Auger and trough are both warranted 5 full years. Chain feeders are not.

Egg producers have been putting up with obsolete chain feeders far too long. Now there's a better way: Chore-Time's proven ULTRAFLO Cage Feeding System. Since introduction, more than 80% of the top 54 egg producers* have gone to ULTRAFLO. A lot of smaller ones have too.

They've all looked at the advantages and chosen ULTRAFLO. That's because it makes them more profitable. Total egg production and egg size—these are the best benefits of our complete feeding system.

Why not check out the facts for yourself? Contact us now—or ask any producer who owns ULTRAFLO.

Because the only negative comments about our feeding system come from our competition—not from our customers.

*The Top 54 U.S. Egg Producers as listed in Nov./Dec. 1991 EGG INDUSTRY
