

#8104 Action TRAIN Alarm Clock!

by

Delweaco

If you remember the old steam engine going down the track with the 'drivers' chugging away, the whistle screaming, and the bell 'ding-dong' ing; you will be amazed at this latest edition to our DELWEACO line of mantle, alarm, and novelty clocks.!

When this alarm goes off, the miniature steam engine goes round and round, in and out of the round house; the whistle blows (VERY realistic!), the red and green lights blink on and off on each side of the station; and the bell clangs and clangs, the drivers chug-chug! Sounds exactly like the old steam engines used to! You will be very impressed with the sound of this toy train! YOU MUST SEE AND HEAR THIS ONE!! NOTE: This is NOT A TOY although my grandchildren love to watch the train go round and round and listen to the bell, the whistle, and the rumble of the drivers! I promise you it will wake you in the morning. Very loud.. Do not use as an alarm if you scare out of sleep etc., as we said before, it is LOUD! The clock movement is our quartz movement, accuracy to + or - 3 minutes a year. Uses 3 'AA' Alkaline batteries. (not included.). Silver and black finish case is 8" tall and 7" circumference. Dial is 2 1/4" round with black numbers and hands. Our ONE YEAR GUARANTEE!. Suggested Retail: \$49.95.

Realistic!
