BE SURE AND SPECIFY KEY(S) ON THE HARMONICAS ORDERED. MOUTH ORGANS ARE NOT RETURNABLE FOR EXCHANGE OR CREDIT.

TYPES OF HARMONICAS

SINGLE REED (Diatonic) The reeds of diatonic harmonicas are tuned to produce the natural notes of the scale without sharps or flats. Each hole has a blow and draw reed. Most of these harmonicas have ten holes with the four middle holes providing a complete note octave.

TREMOLO TUNED Tremolo harmonicas have double holes each containing two reeds tuned to the same note, one tuned slightly higher than the other. Both reeds are either blow or draw, which creates a beautiful, vibrating or tremolo effect.

OCTAVE TUNED Octave tuned harmonicas are similar to tremolos in reed layout. The difference is that each double hole, instead of having reeds tuned to the same note, has one reed an octave apart from the other. The resulting sound is stronger and more full bodied. Full Concert models have four reeds in each double hole a pair of blow and draw reeds.

CHROMATIC Provide complete 12 note octaves with all sharps and flats. Pressing the slide on the side of the harmonica opens/closes reeds for sharps/flats. The Chromatic takes more practice.
