INDUSTRIAL SURE GRIP REAR BACKHOE TIRES

Wide sturdy lugs
The low profile construction of the Industrial Torque tire helps to maximize ground contact for outstanding traction and flotation. It has overlapping lugs for a deep center bite, sidewall bars for sturdy support. Designed specifically for industrial applications, ideal for roadside mowing and light industrial chores. Wide, sturdy lugs provide good traction, and a wide low-profile body helps provide support in loose soil conditions. A good choice for vehicles that operate on and off the highway.
