Brillion Implements Keep Going When Others Quit!

NEW SSS, SS10 & SS12 SEEDERS

For years Brillion Grass Seeders have proven to be the best machine for planting grasses and legumes... and now they're even better! Larger, heavier boxes, high seeding rates, nylon lined seed meter, heavier frame, new drive system and more.

X-FOLD PULVERIZERS 19 to 46 Ft.

The X-Fold pulverizers are designed to meet the needs of today's larger acreage farmers.... and Brillion offers them in two models and 11 sizes. Now available with 20" Ductile Rollers.

SOIL BUILDERS

SOIL BUILDERS are a primary conservation tool that breaks up plow pan to absorb moisture and blends surface residue into the soil with enough residue left on top to control wind and water erosion. 5-13 shank.

ML & WL PULVIMULCHERS

- Easy rolling 20" ductile iron notched or crowfoot roller wheels with a 5 year limited warranty.
- Longer life external mounted bearings.
- Longer, heavier drawbar for shorter turns.

Available 12'6", 13'10", 15'2" & 18'9" rigid
21'6", 25' & 30' flat fold.

There's lots more reasons to buy Brillion... stop in and we'll talk.

3 PT. BASKET CULTIVATORS

Brillion has designed a 3-pt. S-Tine field cultivator with a larger, aggressively angled 12" diameter rolling basket, a 4-bar frame that allows for either 4" or 6" tooth spacing and an adjustable leveler bar in 12', 15' and 18' sizes. The distance between the four bars has been increased for the best trash flow in the industry. Gauge wheels are optional.

FLAIL SHREDDERS

540 OR 1000 RPM
FLAIL SHREDDERS Heaviest gearbox on the market eliminates the number one cause of downtime. Available in 12' and 15'. Either cup or side slicer knives.

SINGLE GANG PULVERIZERS 10 to 16 Ft.

Also Available As Pull Type

NEW P10 SERIES TRANSPORT CONCEPT Brillion's transport concept is new to the industry. Machine weight is hydraulically rotated over the wheels for transport. This reduced drawbar hitch weight considerably and provides ample clearance for transporting. Available with 20 ductile rolls.

HFC FIELD CULTIVATORS 16 1/2 to 31 1/2 Ft.

The "heart" of any field cultivator is the shank pivot point. A "bulked up" shank bracket made of cast ductile iron instead of the usual formed steel bracket, incorporated a hardened steel bushing AND a zerk grease fitting to lubricate the pivot point to reduce wear. The result is thousands of acres of extended life of the shanks.

DEEP TILLS

The three shank model, shown above, has a Category II hitch. With a cutting width of 7'6", it is ideal for operators with smaller acreages and horsepower. It is extremely maneuverable, yet provides the same basic deep tilling job as its "big brothers." 3 to 7 shank.
