GRIND YOUR CORN WITH A MILL FROM BINKLEY & HURST BROS. 2 SIZES IN STOCK: Model 125 Model 170

In fact, you'd probably have a hard time convincing Gehl Mix-All® owners to even look at anything else. And why should they?

The Mix-All's big 12-inch wide hammermill features 66 reversible thin hammers that cut, rather than pound the feed to deliver a more consistent grind and ensure uniform mixing for a better feed conversion rate.

Gehl's self-contained hydraulic system is designed-in, not added on. It provides the precision of infinitely variable in-feed attachment control to match tractor power for greater grinding capacity. Plus you get fast, smooth, trouble-free unloading with greater reliability.

And a wide variety of options and attachments lets you customize your Mix-All to fit any operation.

See your Gehl dealer for more details on the model that's right for you. It may just be the only grinder-mixer you'll ever need.
