L-553

UNMATCHED REACH

You get unmatched forward reach with the Model L-553 skid-steer loader from New Holland. The unique boom lift linkage lifts the payload forward as it rises to load the center of large spreaders and trucks, while the self-leveling boom linkage keeps the bucket level, for less chance of spillback.

The result—faster dumping and fuller loads, for more work per hour.

Take the Model L-553 on a test run today.

STRONG BOXES

DEPENDABLE PERFORMANCE

Year after year it's made New Holland No. 1 in North America.

- Worm gear drive transfers power smoothly to the apron.
- T-rod apron chain operates with less initial wear and no slacking.
- Bonded Protection 12-year warranty on floors and sides. If the polyethylene floor fails or the sides rust, we'll replace them. Free.

Stop by today to see the New Holland "155" spreader.

AGCO ALLIS

OPERATOR FRIENDLY

The AGCO Allis 6600 Series row crop tractors are engineered to put you comfortably in control. In addition to a comfortable cab or a platform and ROPS, you get low maintenance, low operating costs and a 4-year/4,000-hour warranty

- Trouble-free, air- and oil-cooled engine. The 6600 Series tractors are equipped with low-maintenance, 4-cylinder, air- and oil-cooled diesel engines. The 6670 provides 63 PTO hp and the 6680 73 PTO hp, both with 22% torque rise. The 6690 has a turbocharged 81 PTO hp engine that delivers a 28% torque rise, as well as the best fuel economy in its class
- PTO power and versatility. The independent PTO operates at 540/1,000 rpm with 6- and 21-spline shafts and has a hydraulically-actuated wet PTO clutch. The Category II/1 3-point hitch has a convenient rear remote control and is equipped with telescopic stabilizers. Optional telescopic lower links are also available
- Quality performance and comfort. The 6600 Series tractors ride on premium Goodyear® radial tires. They have hydrostatic power steering, a tilt-telescopic steering wheel, hydraulically-actuated wet disc brakes and a mechanically-actuated differential lock. AWD models have four-wheel brakes for 40% better braking and an operator controlled front differential lock for tighter turns. All operated from the comfort of the enclosed cab
- Many speed choices. The synchropower transmission with a separate synchro-reverser offers 12 forward and 12 reverse speeds, planetary final drive and a self-adjusting, hydraulically actuated clutch. An optional creeper transmission provides 16 forward and 16 reverse speeds, a dual speed option has 24 forward and 12 reverse and a power Hi-Lo transmission provides 30 forward and 30 reverse speeds. All tractor models are available as either 2WD or AWD

To experience the user friendliness of the 6600 Series tractors, or any of the "orange" line of AGCO Allis tractors ranging from 40 to 128 PTO hp, stop by or call us soon
