Excellent Supply and Selection

There aren't many companies that can make that claim. Cargill Hybrid Seeds can! Our production was largely unaffected by flooding and frost. We know that earlier-season hybrids will be especially short for many companies.

We Offer The Best Seed Quality of any Company

We know from years of evaluating seed samples from other companies that no one in the industry has better seed quality than Cargill! Seed produced in the Western and Northern parts of the country has many quality problems this year. Don't use anything less than the best!

For Top Quality Seed --- Count On Cargill

127 years of partnership with American Farmers... bringing improved food and fiber to the world. Still a U.S. based, family owned company.

"A Company You Can Count On!"
