There's nothing more important to a crop than early, even emergence. To get it, you need accurate, even seeding.

The 5300 has earned a reputation for its seeding precision, a function of its exclusive feed cup design and dependable disk openers. And, to improve placement of seed, the opener drawbars are heavier than on previous models. Press wheel and opener bearings are heavier for long life operation.

Along with accuracy, the 5300 gives you fast, high capacity seeding, so you spend less time refilling hoppers. Grass seeding attachment for 16x7.

The new Case International 3900 flex-wing disk harrow is just what you need for today's high-powered farming. Expect outstanding performance and reliability with:

- Superior gang strength from a massive welded tubular uni-body gang frame. For years of trouble-free operation.

- Unique self-leveling spring-loaded hitch that transfers weight between tractor and disk to maintain ground-hugging performance in uneven terrain.

- A new mechanical stop depth control that eliminates variances common with master/slave systems. Plus crank adjustment for easy fine-tuning of front-to-back leveling. Great for uniform incorporation of chemicals and residues.

- Earth Metal® blades for sharp penetration and easy pull that save you fuel. Plus extra durability that means fewer replacements. Check out the new 3900. Stop in today.
