Gehl Introduces Pull-Type Mower-Conditioner

GEHL 2175 Mower Conditioner

WEST BEND, Wis. — Gehl's new nine-foot sicklebar mower conditioner is built for fast cutting, fast drying, and worry-free performance.

The new model 2175 features a simple pivot-arm knife drive for high-speed cutting.

"The sickle drive is powered off the lower conditioner roll, so you get 'flywheel-type' momentum for extra cutting energy when you need it," said Jim Phillips, Gehl hay tool product manager. "The entire drive system consists of one gearbox, two belts and two chains. It's extremely simple for fewer adjustments and less maintenance costs."

Precision-made 109-inch, machined rubber intermeshing conditioning rolls gently crack stems for faster dry-down. According to Phillips, "The durable

rolls are machined so exact dimensions can be maintained across the full width."

A single lever adjusts the forming chamber to create

fluffy windrows or full-width swaths. A proven three-point flotation system responds quickly to ground variances to maintain an even cut.

Gehl's new nine-foot sicklebar mower conditioner is built for fast cutting, fast drying, and worry-free performance.

The new model 2175 features a simple pivot-arm knife drive for high-speed cutting.

RHINO

Snow Snow Snow Snow Binkley & Hurst Bros. Has A Blade For You From Little To Big!

If It's Snow Removal Or Heavy Duty Excavating, You Need A Rhino Blade From Binkley & Hurst Bros. Now!

A support stand is standard on the 800 Blade to provide safer storage and unit hook-up. The moldboard and replaceable cutting edge form a constant curvature to cut and roll the material being worked more efficiently. Optional equipment includes quick-tach end plates, skid shoes, and CAT II quick coupler bushings.

The 800 Blade features mainframe swing, moldboard pivot, and moldboard tilt to fit a wide range of applications. The blade can be offset a maximum of 30" from the center line of the tractor for working outside the tractor's moldboard can be pivoted a full 360 degrees for back reach areas.
