

# Farm Show Scholarships

(Continued from Page A17)

Junior Livestock Sale toward scholarships. It is intended to strengthen the youth program at Farm Show by rewarding 4-H and FFA members who are excelling in 4-H and FFA programs.

"Looking at the caliber of the 41 applicants, we have really seen some outstanding youth making a tremendous impact in their communities," said Ken Winebark, chairman of the Scholarship Committee and a director of the year-old Farm Show Scholarship Foundation. "We can make a strong impact in agriculture in the future with good leaders."

"We hope to strengthen the financial support for the Farm Show Foundation through memberships and the sale of animals this year so we'll be able to offer more scholarships to more students in the future," he added.

Receiving a scholarship award was Daryl Jay Bomgardner, son of Charles & Marlene Bomgardner

of Annville. Daryl graduated from Annville Cleona High School, where he was active in the National Honor Society, basketball, track and baseball. He is currently a junior at Penn State majoring in dairy and animal science.

Four years ago Daryl exhibited the grand champion market hog and donated \$3,000 of his proceeds back to the 4-H and FFA. He's been a Farm Show exhibitor in swine and beef for nine years as a member of 4-H and FFA.

"Raising and exhibiting livestock projects has provided me with various experiences and benefits," Daryl said. "It has provided me with lifelong friendships, responsibilities, a hard work ethic, knowledge and financial support."

Amysue Eshelman, daughter of Larry and Susan Eshelman of Sinking Spring, also received a scholarship.

Amysue is a graduate of Governor Mifflin High School where she was an honor student and is currently a sophomore at Penn State

University majoring in dairy and animal science.

She is a member of the Block and Bridle Club, Gouglersville Grange, Berks Cattlemans Association and was the 1992 Pennsylvania Wool Queen. Amysue has exhibited lambs, hogs and steers at the Farm Show since 1984 and won the shepherd's contest in 1992. She has received numerous awards and held a variety of offices during her 10 years in 4-H.

"Four-H activities have provided the tools for me to learn important social, professional and work ethic skills that are so important in being a productive and effective member of the agricultural society," Amysue said.

Kimberly Ann Frantz, daughter of Tom and Karen Frantz of Seven Valleys, is a graduate of Dalls-town Area High School where she was active in field hockey and is now a freshman at Millersville University, majoring in biology.

She has exhibited several champions and reserve champions at the Farm Show, including the champion Duroc market hog in

1991 and the Duroc bred gilt in 1989, and has been involved with the Pennsylvania Pork Producers Council.

"I like helping younger 4-H members, watching their faces light up as they receive a blue ribbon," Kimberly said, "proving how important 4-H is to America and its youth. Despite any sharp turns which my future may take,

the memories and wonderful friendships which I have made will make it impossible for me to ever leave 4-HY and livestock."

Brian Kreider, son of Richard and Carol Kreider of Lebanon, graduated from Cedar Crest High School and is now a sophomore at Penn State majoring in agronomy.

Brian has been active for 10 (Turn to Page A37)

## 4624/4671

# Plant them for the Performance

### Buy them for the savings

If you're looking for big performance from a late maturity hybrid, it's tough to beat Funk's G® brand 4624 or 4671. And now there's a way to get that performance at substantial savings.

You'll save \$330 when you buy 24 units of each in our 48-unit Performance Pak®. Or save \$50 when you buy six units of each in our 12-unit Trial Pak®. Either way, you'll get two of our best hybrids for yield, standability, drydown and all-around performance.

Find out how you can get big hybrid performance at big savings. Ask your local Hoffman sales representative today. Or call: **1-800-776-7929**

## 4624

### Relative Maturity: 118 days

- ◆ Consistent performance. Produced 203 Bu/A in Sussex County, Del. in a 1992 field check.
- ◆ Outstanding silage quality for superior milk production.
- ◆ Solid performer even under drought and in increasing populations.
- ◆ Resistant to Southern Corn Leaf Blight.

## 4671

### Relative Maturity: 120 days

- ◆ Unmatched silage yields and quality in a 120-day hybrid.
- ◆ Consistently tops independent competitive plots for Group 6 hybrids.
- ◆ Good test weights and grain quality.
- ◆ Excellent response to high yield environments.
