

## Junior Livestock Champions

(Continued from Page A22)  
steers, \$3,000 for swine, and \$1,200 per lamb.

The grand champion steer was shown by Brad Linton, son of Fred and Deborah Linton, and was purchased by Bill Campbell, CEO of Hoss's Steak and Sea House, for \$17,000.

The grand champion lamb was shown by Chelsea Viti, daughter of Don and Linda Viti, of Hookstown, and Glatfelter Insurance Group paid \$2,400.

The reserve champion market swine was shown by Melissa Becker, daughter of Marlin and Nancy Becker, of Manheim, and was bought for \$5,500 by Hoss's Steak and Sea House.

The reserve grand champion market steer was shown by Jonathan Stockdale, son of Rod and Trish Stockdale, of New Bethlehem, and was purchased for \$4,000 by Glatfelter Insurance Group, out of York.

The reserve grand champion market lamb was shown by Benjamin Bow, son of Ben and Mary Bow, of Annaville, and was purchased for \$2,800 by Glatfelter Insurance Group.

Overall, there were 197 buyers registered for the sale.

On average, with the champions added in, steers sold for \$1,432 each, while market swine sold for an average \$373 each, and lambs sold for \$254 each.

NEW BLOOMFIELD (Perry Co.) — The public is invited to the annual meeting of the Perry County Cooperative Extension on Thursday, January 27, at 7 p.m. at the Perry Valley Grange Hall.

Featured during the evening's activities will be the presentation

of the Perry County Soil District's Conservation Farmers-of-the-Year and the presentation of the Cooperative Extension Award.

The keynote speaker will be Dr. Herb Cole of Penn State University.

Reservations for the ham dinner and meeting can be made by calling the Perry County Cooperative Extension office (717) 582-2131, ext. 244. Tickets are \$7.25 and may be purchased from a director or purchased at the door.

# CHEESE BURGER Days!

## "Farming is a big investment..."

Time is valuable. An equipment breakdown in the field, delayed supplies, or sudden weather changes mean lost dollars, without quick reaction. Our GE mobile radio system gives us greater control and coordination over our operation. It's a farmer's friend."

Roger C. Garber  
James M. Garber & Sons

Why are farmers turning to mobile radio? During planting and harvesting your farm and equipment need to be operating at full potential. General Electric Mobile Radio Systems provide quick, cost effective communications from home or field. It's like having another "farm hand" to help with the chores.

## Perry Extension Sets Meeting

### Promise/Attainer

## Plant them for the Performance

For maximum feed value from your alfalfa crop, it's hard to beat the performance of Promise or Attainer.

Promise was one of only two alfalfa varieties to produce 6 T/A yields in Cornell trials. And its two-year average of 8.49 T/A in Penn State trials was tops among 49 varieties.

Attainer is unmatched in milk production per acre. It produced 16,200 lbs. of milk/acre in 1992 field trials.

Find out how you can improve your forage program using Promise or Attainer. Talk to your local Hoffman Seeds sales representative. Or call: **1-800-776-7929**

### Promise

- ◆ Produced 1,800 lbs./A yield advantage in its third production year compared to check varieties in N.Y. state trials.
- ◆ Produced a 3-year yield advantage of 2.5 T/A in Penn State trials when compared to the mean.
- ◆ Exceptional persistence even under intensive cutting management for maximum forage production.
- ◆ High resistance to all alfalfa diseases common to the Northeast.
- ◆ Stand durations from 4-5 years minimize your reseeding expenses.

### Attainer

- ◆ Produced 16,200 lbs. of milk/acre in 1992 field trials.
- ◆ Highly resistant to all alfalfa diseases.
- ◆ Unmatched stem quality, plus an increase in leaf-to-stem ratio for greater protein content
- ◆ Larger harvest window than most alfalfas for improved field management.
