

Introducing. . .

A dairy feed that could make your cows more productive, while also improving their feed conversion and breeding efficiency.

SUPERCOW is a blend of high fat nuggets and pellets specially designed and manufactured by Purina to deliver feed quality, nutrient density and super palatability. The nutrient-rich blend is placed with complete nutrition and is

highly palatable.

In field trials, cows fed SUPERCOW produced an average of 6.7 pounds more milk per cow per day, while improving or maintaining milk composition. And while production increased, the cows that were fed SUPERCOW maintained or improved their body-condition scores after freshening and were more-feed efficient.
