**Promise/Attainer**

**Plant them for the Performance**

For maximum feed value from your alfalfa crop, it's hard to beat the performance of Promise or Attainer

Promise was one of only two alfalfa varieties to produce 6 T/A yields in Cornell trials And its two-year average of 8 49 T/A in Penn State trials was tops among 49 varieties

Attainer is unmatched in milk production per acre It produced 16,200 lbs of milk/acre in 1992 field trials

Find out how you can improve your forage program using Promise or Attainer. Talk to your local Hoffman Seeds sales representative  
Or call: **1-800-776-7929**

**Promise**

- ◆ Produced 1,800 lbs./A yield advantage in its third production year compared to check varieties in N Y state trials.
- ◆ Produced a 3-year yield advantage of 2.5 T/A in Penn State trials when compared to the mean.
- ◆ Exceptional persistence even under intensive cutting management for maximum forage production.
- ◆ High resistance to all alfalfa diseases common to the Northeast.
- ◆ Stand durations from 4-5 years minimize your reseeding expenses.

**Attainer**

- ◆ Produced 16,200 lbs. of milk/acre in 1992 field trials
- ◆ Highly resistant to all alfalfa diseases.
- ◆ Unmatched stem quality, plus an increase in leaf-to-stem ratio for greater protein content
- ◆ Larger harvest window than most alfalfas for improved field management

Adding Value To Your Seed Investment

**"Farming is a big investment..."**

Time is valuable. An equipment breakdown in the field, delayed supplies, or sudden weather changes mean lost dollars, without quick reaction. Our GE mobile radio system gives us greater control and coordination over our operation. It's a farmer's friend."

Roger C. Garber  
James M. Garber & Sons

Why are farmers turning to mobile radio? During planting and harvesting your farm and equipment need to be operating at full potential. General Electric Mobile Radio Systems provide quick, cost effective communications from home or field. It's like having another "farm hand" to help with the chores.
