

NEW ITEMS!!

36 YEARS
OF SERVICE

Dear Customer;

We have been looking for some time for a less expensive, battery operated, but high value pocket watch which we could make available to our customers; who for various reasons can not afford the higher quality, but more expensive all Swiss models. We believe the following fits the need we have been looking for!. NOTE: These are not as high quality as the all Swiss models, but they are very good quality at a very affordable price! These are fully repairable and not throw-a-way types which cost almost as much, but are either pin levers, or Hong Kong made. The three models below have a Far East case, dial and hands, but then have a Swiss or Japan quality movement! They are quartz (battery operated) for very high accuracy, + or - 5 minutes per year! All come in a gold COLOR case, dial and hands as per below. All come with a matching metal chain! Best of all, these are Specially PRICED at \$25.95 - MIX or MATCH! I am sure you will like this price and their high quality! *Andy*
