(717) 445-6976

## Why Are Massey Ferguson Tractors The World's Best Selling?

When building a 2WD tractor, there's little reason to conserve weight. In fact, you may well end up adding weight for traction.

With 4WD tractors, you really don't need, or even want so much weight. It just makes the tractor less maneuverable, hurts performance, lowers efficiency and increases soil compaction.

MF 300 Series 4WD tractors are engineered with just the right weight, balance and strength for optimum 4WD performance. This means easy handling, with all the performance of bigger, more expensive tractors.

Smart engineering is just one of the many reasons why, over the last 28 years, more people have selected Massey Ferguson tractors than any other brand. Check out all the reasons today at your MF dealer.

# Designed from the beginning for 4WD performance.

Standard hydrostatic steering for fast, easy turns and precise handling.

Low-rate MF financing for qualified buyers makes ownership easy.

Hydralock front-wheel differential engages automatically with rear differential lock.

50° turning angle means less "jockeying" in tight quarters, and shorter headlands.

Wheels don't lean on full lock, reducing soil damage and tire wear
