**BINKLEY & HURST BROS. INC. STOCKS DUAL WHEEL KITS & HARDWARE - SEE US FOR ALL YOUR NEEDS!**

**Unverferth Snap-Ons: more of what you're looking for**

**Operating Guidelines**

As in all dual wheel applications, Snap-On duals should be maintained at lower air pressure than the original tractor tires.

To remove Snap-On duals, simply position one clamp at top center and remove all other clamps. Then, using the furnished handle for additional leverage, disengage the remaining clamp to loosen the dual.

Ductile iron clamps feature an innovative foot design which eliminates bending and loosening of the components by applying the support load to the rim rather than to the nail.

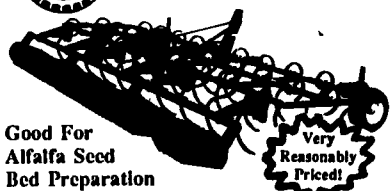

Heat-treated, epoxy coated steel attaching hooks are corrosion resistant and virtually indestructible.

Tear drop forged eye nuts resist stretching and breaking and feature a rust inhibiting, electroplated finish.

Unverferth's economical new S-tine cultivator teams rugged S-tines with an aggressive roller basket for thorough secondary tillage.

Get Secondary Tillage That's Effective And Affordable
