Farmhand WingPackers break clods, level seedbeds...then gently firm the soil to reduce air pockets and seal in moisture.

Flat fold WingPackers range from 19' to 36' wide. Behind a disk harrow or field cultivator, they're an ideal final tool before planting. Behind a drill, they gently but firmly pack soil to increase seed-to-soil contact, improving germination for even field stands.

FACTORY DIRECT **ALSO SMALL NON-FOLD PACKERS**

Check these high-performance features:

- All units fold flat to a safe transport width of 13'6".
- Single hydraulic control for transport and to raise/lower wings.
- Heavy-duty tubing and plate construction with 4"x6" tool bar
- Choose smooth 6-spoke rollers or crowfoot rollers for more aggressive action.
