CUT BIG HAY FIELDS DOWN TO SIZE!

Gehl swing-frame mower conditioners are
designed to cut your biggest hayfields down to
size. Gehl swing-frames give you the capacity and
maneuverability of a self-propelled mower
conditioner at a pull-type price. Gehl also makes
conventional sicklebar models as well as disc
mower conditioners.

**IN STOCK! Ready To Cut Gehl

COST CUTTERS

9' and
10 1/2' Model
In Stock

Gehl has two all new disc mower con-
ditioners to cut your crop down to size,
fast and easy. The DC2340 has 7
discs and a 9 foot cutting width, the
DC2360 has 8 discs, and a 10 1/2 foot
cutting width.

— Standard hydraulic tongue Makes it easy to
position the unit without leaving the tractor seat

- High speed discs —
Each disc has two
knives to slice
through the toughest
crops and conditions
the disc gear drive
operates in an oil
bath for long life.
- Sturdy frame —
Cradles the cuttersbar
for extra protection
and durability
- 540 or 1,000 rpm
driveline with equal-
angle hitch for
smooth power
transfer.

GEHL

A sturdy cutterbar
support frame extends
beneath the entire
cutterbar. This design
shields the cutterbar
from direct impact with
rocks or other field
obstructions.

ATTACHMENTS

FOR GEHL SKID LOADERS

IN STOCK

AUGERS

Hydraulically-driven augers provide fast, economical digging. With
auger bits available in 9-, 12-, 18-, and 24-inch diameters, these
augers give you the ability to handle a multitude of tasks. Maximum
digging depth is 48 inches, with optional extensions available.

SWEEPERS

Hydraulically-driven brooms provide quick and easy sweeping with
minimal effort. Available with a polypropylene or polypropylene and
wire brush, these brooms will sweep away your problems. Features
include an adjustable sweeping angle to either side. Five foot models
available are for 3000 and 4000 series loaders, with 6 foot models
available for 5000 and 6000 series loaders.

OTHER ATTACHMENTS AVAILABLE NOT IN STOCK!

DOZER BLADES

TIRE CRAWLERS

For sand, snow or mud, Gehl tire tracks get you through the
toughest weather and working conditions to get the job done on
time. The patented self-cleaning design keeps mud, ice, rocks and
other debris from wedging in the tracks.

TRENCHERS

Handle tough trenching jobs with ease when you add a Gehl
trencher to your skid loader arsenal. Two models are available, with
trenching widths of 6 inches and depths down to 4 feet. Features
include standard 43,000 lb. trencher chain and a 4 foot long
hydraulic drive boom. Trencher attachment shifts from side to side
for trenching near buildings or foundations.

ROCKHOUND

The Gehl Rockhound is designed as the perfect tool for landscape
contractors. With its unique rake action, the Rockhound collects
rocks and surface debris, leaving soil in a loose, level condition. It
will remove rocks, sticks and metal from the ground surface, leaving
you with up to 3 inches of loose, relatively debris-free soil. Its
unique action will also dethatch tired turf, leaving the surface ready
to re-seed.

TREE TRANSPLANTER

This unit carefully surrounds and hydraulically digs up trees. An
optional rear stabilizer maintains down pressure on the frame.
Models are available for 4000, 5000 and 6000 series skid loaders.

BUCKET/SWEEPER

The 60-inch and 72 inch wide bucket/broom combination is perfect
for sweeping roads, driveways and parking lots. This maneuverable
unit sweeps in a forward direction, picking up debris over the brush
and into the bucket. Over-the-brush pick-up lets you sweep bulky
items as well as fine dirt and gravel. An optional gutter broom is a
great addition for roadwork.
