HANDLES ANYTHING THAT CROPS UP.

Kubota M-Series farm tractors are built for any kind of work that crops up. And with 4-wheel drive, they easily pull implements you'd expect to find behind a much larger tractor.

These Kubota tractors are built with strong, liquid-cooled diesel engines. With 44-85 PTO horsepower. Optional shuttle-shift transmissions. A turbo-charged model offers increased pulling power. A narrow new version works harder in close quarters.

Although a Kubota is built to take on work, it doesn't come with the big fuel bill or other operating expenses of many larger tractors.

Before you plow, cultivate, spray, load, mow, or bale, take one look at the Kubota M-Series. It handles any work that crops up.

Kubota
