

Shred Corn Stalks or Cut Grass And Brush With A Well Built Rhino Cutter from Binkley & Hurst Now!

The SR15...

15' Medium Duty, Flex Wing Rotary Cutter is the ideal choice for mowing pastures, highway rights-of-way, crop residue, and other general purpose applications.

Available in 540 or 1000 RPM, the SR15 features a proven four-gearbox design that is rated to cut material up to 2" in diameter.

The divider gearbox is rated at 140 HP and the center and wing gearboxes are rated at 100 HP. The 10 gauge deck is reinforced with heavy wall tubing that provides added strength and extended life to the mower's mainframe. Replaceable side skirts are 1/4" thick and 10 1/2" deep, providing extra capacity to handle those demanding cutting jobs.

* 1000 RPM

The SE 5, 6 & 6...

Servis-Rhino's SE family of economical single-spindle rotary mowers are rated for material up to 1" in diameter and are ideal for weed or grass mowing, pasture clipping, and cleaning up overgrown areas around the farm.

Available in widths of 5', 6', and 7', SE mowers are designed for 540 RPM tractors with a standard CAT I three-point or CAT II hitch for the SE7. The flexible three-point hitch design allows the mower to follow the contour of the ground while minimizing the stress placed on the tractor. Standard features include free-swinging updraft blades for a cleaner cut, pan blade carries that help the unit glide over obstructions, and a streamlined deck provides for easier clean up and enhanced eye appeal. The rear tapered deck design provides for safer and more even distribution of cut material. A Cat 3 driveline is standard on the SE5. The SE6 and SE7 feature a dependable Cat 4 driveline to help withstand the horsepower of larger tractors. Ruggedly built and time-tested gearboxes are at the heart of every SE mower from Servis-Rhino to help provide quality at an economical price.
