APRIL PARTS DEPT. SPECIAL

BEARLINK Replacement Top Link Improves The Performance Of Your Three Point Tractor!

The BEARLINK's seven inch adjustment stroke moves with hydraulic power, automatically locking in place wherever you want it...saving you time back behind the tractor...making hooking implements or taking them off faster and easier...BEARLINK owners tell of shortening the hydraulic link while turning around at the ends of fields saving damage to equipment and making in-field angle adjustments without stopping...

It's Your Turn TO Profit!

Others report hookups and unhookups without the usual hassles of freeing up the threads and all the usual manual labor associated with their mechanical top link. Every dollar you save in labor costs, time, and damage to equipment or crops... goes directly to your bottom line.
