TURBOCHARGER SYSTEM

Ford 7.3L/6.9L Diesel Pickup & Navistar S Series Trucks

Hypermax ENGINEERING, INC.

The HYPERMAX PULSE TURBOCHARGER SYSTEM utilizes the high pressure exhaust pulses to achieve faster "off idle" engine acceleration and vastly improves throttle response. This response feature is accomplished without the use of a wastegate, which detracts from performance anywhere but at low engine speeds, due to its inherent high exhaust back pressure.
