**X-FOLD**

The Brillon X-Fold Series Pulverizers are the answer for farm operators who need to cover a lot of ground...quickly. A unique folding mechanism reduces the transport width and height to a manageable size that will pass through restrictive bridges or down narrow roads. With its X-Fold configuration, Brillon is able to reduce transport height well below low-hanging utility wires or tree branches.

**NEW P10 SERIES TRANSPORT CONCEPT**

Brillon's transport concept is new to the industry. Machine weight is hydraulically rotated over the wheels for transport. This reduces drawbar hitch weight considerably and provides ample clearance for transporting.
