APRIL PARTS DEPT. SPECIAL

BEARLINK Replacement Top Link Improves The Performance Of Your Three Point Tractor!

The BEARLINK's seven inch adjustment stroke moves with hydraulic power, automatically locking in place wherever you want k…awing you trips back behind the tracter…making hooking implements or taking them off faster and sefer...BEARINK owners tall of shortening the hydraulic link while luming around at the ends of fields saving demage to equipment and making in-field angle adjustments without stopping...

It's Your Turn TO Profit! List \$569.00

INTRODUCTORY OFFER \$51210

REMOTE MASTER

DOES IT ALL!

report mockups and unhocks without the usual hassles of freeing up the threads and all the usual manual secclated with their mechanical top link. Every dollar you save in labor costs, time, and damage to ent or crops... goes directly to your bottom line. Others report hookups and unhooks without the us

The REMOTE MASTER lets you use one outlet to control wo sets of hoses by moving a three-position toggle witch from circuit A to circuit B, then operating your existing tractor lever for directional control.

Phino disc mowers feature an easy access cultertar. The innovative design of the outsirbar atlows access to the disc spindle shaft and geer module without disassembly of the entire outsirbar, reducing maintenance costs and downtime. The hardened rock guards are designed to help protect the entire leading edge of the outsirbar from damage and, slong with the skild shoes, are easily replaceable. A heavy-duty CAT HI & Cat II offset three-point hitch made of 4"16" thick-wall budge is standard to provide dependable service. A safety breaksway system is built in to provide maintrams protection against sudden impacts when moving With 5" of blade overlap and blade tip speed of 15,814 FPM. Phugged construction and high performance are two ressons Phino disc mowers are the ideal choice for fast, efficent grass mowing.
