- Shaver 3 Pt. Hydraulic Post Drive \$2,500

Dynashift™
delivers the
features you
asked for.

What farmers like you told us
you want in a powershift transmission.

"Smooth shifts"	The transmission has to shift as smoothly as you can manually shift, without the jerks that can damage implements
"Fuel efficiency"	Deliver more engine power to the wheels and PTO.
"Reverse shuttle shifting"	Make synchronized shifts from forward to reverse
"Better speed selection"	The next powershift gear should never be more than 17% faster or slower
"Low cost"	Make the benefits of powershifting more affordable to buy and maintain

HYDRA-SPREAD

HYDRAULIC PUSH-OFF MANURE SPREADER

Single or two beater designs. Aggressive, high-speed beaters - with up to 15 paddles per beater - deliver a fine uniform spread. Replaceable bolted paddles on main beater

Snug-fitting end-gate controls sloppy or granular manure.

Polyethylene sides and bottom containing 90% re-cycled material. Guaranteed for the life of the spreader.

Simple and reliable single-stage push gate for dependable, trouble-free unloading. Centre-guided design eliminates jam-ups

Optional slurry pan prevents spills. Controls sloppy or fine materials for even finer more uniform spreading.

Optional wood rails - increase capacity and protect the box.

Precision metering valve for infinitely variable unloading from 0 - 8 fpm

Simple, dependable power train. Every shaft (even the upper beater) is splined for efficient power transmission and long life.

Fully shielded PTO with overload protection

Truck type or flotation tires to suit your needs.

Clean design. No obstructions to hold manure

Driveline and gearbox are safely contained within the frame - under the floor. Easily serviced and repaired

Hydraulic cylinders are installed above the floor. Always accessible - always easy to clean and service

Strong, all-welded frame with heavy structural tubes. All structural members are high-strength steel.

The New CLAAS ROTOCUT SILAGE BALER

Cuts Your Crop As It Is Forced Through A Series Of Knives.

The Benefits:

- Hard to feed crops are aggressively fed right into this baler
- Now you can cut and bale rye, barley and oats at boot stage.
- Bales fall apart - you can throw them down a hay hole and feed them with a fork.
