Pumps by J-STAR  
**SHREDDER  
PUMPS**

The Nesseth Two-point Shredder Pump has been designed to out pump them all! Nesseth pumps are designed to make quick work of your agitation, transfer and tank filling requirements and feature models in 8', 10' and 12' lengths. The standard model has a 10 degree downward fixed 5" agitation port that has a rotation adjustment of 270 degrees. A second upper agitation port can be added as an option at the time of purchase or any time by simply bolting on the valve and controls. This 4" top agitation port with 60 degree vertical adjustment (30 degrees up and 30 degrees down) and 270 degree rotation adjustment is just what you need if it is necessary to "wash down" a top crust during agitation.

**Big Pump — Little Price**
