BOARS: 36.00.

GOATS: 15.00-40.00 PER HEAD.

A Full Season Of Grass Control In Every Micro-Capsule.

If you could look inside a micro-capsule of Partner® herbicide, you'd see something remarkable. A full season's worth of grass control plus the added bonus of superior crop safety.

TIMED-RELEASE, SEASON-LONG GRASS CONTROL IN CORN AND BEANS.

Because of its unique encapsulated formula, Partner "meters out" grass control throughout the growing season. The kind of effective preemergent control

you need to stop yield-robbing grasses like foxtails, fall panicum and barnyardgrass.

Plus, the timed-release action of Partner provides maximum crop safety. Especially when young plants are most susceptible to herbicide stress.

CONVENIENT DRY FORMULATION MIXES QUICKLY AND EASILY.

Unlike other grass herbicides, Partner comes in an easy-to-handle dry formulation. And while it mixes quickly and

completely in your tank, there are no meters to mess with, no pumps to replace and no containers to rinse.

This year, ask your dealer for timed-release Partner herbicide from Monsanto.

SEASON-LONG CONTROL THAT'S EASY TO HANDLE.

Always read and follow label directions. Partner® is a Restricted Use Pesticide. Partner® is a registered trademark of Monsanto Company. © 1994 Monsanto Company PA# 4 201

Please contact your Dealer or your local Monsanto Representative for details.
