

**3 SILOS AND UNLOADERS**

# WARNING!

## An odorless, colorless, invisible--and costly--forage thief!

You can't see it--and you can't stop it. Storage losses in forage can steal your valuable crop--how much is lost depends upon how you store your feed:

- Tower Silos have 3% to 8% loss\*
- Bunkers have 27% to 45% loss\*\*

If the average difference in feed lost between tower silos and bunkers is 30%, then storage of 1000 tons will mean 300 tons MORE lost in a bunker. If silage is valued at \$30 per ton, the additional losses from bunker storage would be \$9000 a year.

For information on losses for all types of crop storage methods, contact the Crop Storage Institute for your free copy of "Methods of Crop Storage" and "Know the Facts."

# TRAK STARS

## Feed-Trak™

High-Capacity Belt Feeder

It's hard to imagine so much feeder at such a good price. Let your Starline Dealer show you why Feed-Trak is so efficient, dependable and quiet. New feeder features simple design, exclusive smooth-running track and trolley system and high-capacity STARglider™ V-Plow. This feeder is right on "trak"!

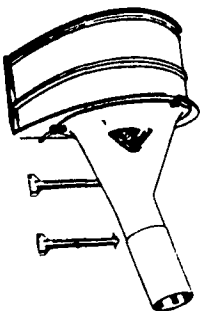

Built to last, priced to sell.

## Cen-Trak™

Power Drive Unloader

Meet Cen-Trak! The new and better concept in single-cable unloaders. Simple, dependable power drive design eliminates the problems of other high-torque, center-drive machines. You get economy and faster, high-capacity unloading with fewer trips up the silo. Only from Starline!

## Nesseth

Pumps by J-STAR  
**SHREDDER PUMPS**

The Nesseth Two-point Shredder Pump has been designed to out pump them all! Nesseth pumps are designed to make quick work of your agitation, transfer and tank filling requirements and feature models in 8', 10' and 12' lengths. The standard model has a 10 degree downward fixed 5" agitation port that has a rotation adjustment of 270 degrees. A second upper agitation port can be added as an option at the time of purchase or any time by simply bolting on the valve and controls. This 4" top agitation port with 60 degree vertical adjustment (30 degrees up and 30 degrees down) and 270 degree rotation adjustment is just what you need if it is necessary to "wash down" a top crust during agitation.

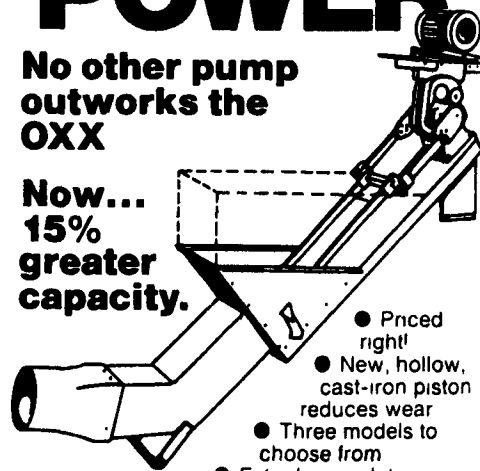

**Big Pump — Little Price**

## Nesseth

**PISTON PUMP POWER**

No other pump outworks the OXX

Now... 15% greater capacity.

- Priced right!
- New, hollow, cast-iron piston reduces wear
- Three models to choose from
- Extra heavy-duty construction for years of dependable service

Available exclusively from your Jamesway dealer.

The best gets better!
