If Your Fields Are Rocky, You Need To Own A Heavy Duty Rock Rake With Replace Wear Paddles. Note, They Work Well Enough To Prepare Large Landscaping Projects.

ROCK RAKE
The Degenman Rock Rake is designed to windrow small to medium sized rocks and other ground debris for easy picking. Rock-free fields mean less down-time, greater profits.

Get Rid Of Costly Rocks Now!

ROCK PICKERS

Hi-Lift
The Hi-Lift makes field piling and the removal of rocks by truck simple and effort less.

Semi-Hi
A handworking reel type picker ideal for field piling. Picks gravel-size stones to boulders in continuous picking action, then dumps them conveniently and easily.

Prong Type
Man handles rocks from 4 to 36 inches, even on the roughest terrain.

TIME IS MONEY
and when your equipment is down, it costs you plenty.
That's why Degenman engineered farm implements are a wise investment.

COST CUTTERS

9' and 10 1/2' Model In Stock

Gehl has two all-new disc mower conditioners to cut your crop down to size, fast and easy. The DC2340 has 7 discs and a 9 foot cutting width, the DC2380 has 8 discs and a 10-1/2 foot cutting width.

- High speed discs - Each disc has two knives to slice through the toughest crops and conditions; the disc gear drive operates in an oil bath for long life.
- Sturdy frame - Cradles the cutterbar for extra protection and durability.
- 540 or 1,000 rpm drive with equal-angle hitch for smooth power transfer.
- Standard hydraulic tongue - Makes it easy to position the unit without leaving the tractor seat.

If You Chop Haylage and Want Top Performance For A Good Start This Spring, Get A Gehl 1065 Super Chopper From Binkley & Hurst Now!

CHOP IT DOWN

Gehl forage harvesters get the job done faster with these performance features:

- Exclusive Auto-Max Load-Sensing System - Increase capacity by up to 20%. Lets you operate at top capacity without the fear of downtime due to overloading.
- Metal-Stop Metal Detector - Prevents machine damage and hardware disease.
- In-head Hydraulic Knife Sharpener - Lets you sharpen knives in the field.
- Patented One-Sided Cutterbar Adjustment - Makes adjusting the cutterbar quick and easy.
- Three Models To Choose From - Including the largest capacity pull-type forage harvester on the market.

Model 1065 In Stock w/Tandem Axle For Smoother Chopping With All The Finest Features Shown Here!

Choose the Gehl blower that's right for you.

With three models it's easy to match a high-capacity Gehl blower to your operation. In side by side tests at a 100' silo, Gehl blowers outperformed the best the competition had to offer, with the Model 1580 cleaning out an 18' self-unloading box full of haylage 18% faster than the closest competitive blower and 25% faster than one of the so called "leaders".

Gehl's secret is the twin spinner delivery system and the twin-sided fan. Two 24-inch spinners rifle your crop into the blower fan at nearly 35 mph. There, the twin-sided fan, with paddles on each side, blows the material up the pipe with ease...it's almost like getting the performance of two blowers in one.

Gehl blowers are also loaded with convenience features you're sure to appreciate.

The three main factors that contribute to a forage blower's capacity are tip speed, hopper capabilities and available horsepower. Generally speaking, for optimum capacity, the blower requires at least one horsepower for each foot the material must be blown.

For instance, a blower on a 20-foot-diameter by 80-foot center fill silo would require 70-plus horsepower. On a 25-foot diameter by 80-foot center fill silo you should have 100-plus horsepower.

Horsepower requirements can be reduced with smoother unloading forage boxes and a wider gooseneck at the top of the silo.

As a guideline, we recommend the following:

Silo size	HP required	Gehl Model
20'Wx60'-70' high	70 hp	FB1540
20'Wx80' high	90 hp	FB1580 (540 rpm) In stock FB1580 (1000 rpm) In stock
25'Wx90' and higher	100+ hp	

GEHL Investing today in the future of agriculture

PACK IT IN!

With Gehl's variable chamber round balers

Model 1470 In Stock!

- Total Density Control (TDC) - Custom build bales
- Make bales 33" x 5' wide
- Quick wrap option - Speeds baling, preserves quality
- Constant velocity driveline - For smooth operation
- Electric dual twine wrap - With manual or auto control
- Low horsepower requirement - Needs only 40 hp

Model 1540 540 PTO Economy Priced

Model 1580 1000 RPM With The Highest Blowing Capacity On The Market

BOTH MODELS IN STOCK!

- Three models with a choice of 540 or 1000 rpm
- Twin spinners rifle material at nearly 35 mph
- Twin sided fan disc with paddles on both sides
- Split rim sheets feature a replaceable inner liner
- Many convenience features

Adjustable left tire. Setting up at the silo is faster and easier. The adjustable left axle lets you line up the blower without loosening and adjusting the rim sheet. Simply adjust the tire up or down until you get the matching angle to your pipe.

Swing away blower outlet. They're more than a tremendous blowing capacity designed into these blowers. Gehl swing away outlet makes it easier than ever to check fan paddle and rim sheet clearances and for rim sheet liner replacement. (Note: this outlet should never be opened until the silo is disconnected from the tractor and the blower disc has stopped turning.)

Greater rim sheet life. These blowers feature split rim sheets with a special inner, replaceable liner. This extra hard liner is twice the thickness of ordinary rim sheet steel. In addition, when it finally does wear out, you only replace the liner that fits in the extreme wear area of the blower, right below the outlet. You don't have to replace the entire rim sheet! The result: reduced costs over the life of your Gehl blower.

Easier, faster fit to silo pipe. Once you have the right angle between your blower outlet and your pipe, it's easy to slide the telescopic pipe into position. This new tip assures proper alignment and fit.

Tire Guard. This tire guard protects the right blower tire when you're cleaning up around the blower with a alleys fork. It is standard equipment on the 1580 and 1540, optional on the 1540.

Binkley & Hurst Bros., Inc. Is THE NEW 300 SERIES Your Place To Buy One Good GEHL LINE OF QUALITY SCAVANGER SPREADERS
