New York & Phila. Frozen Egg Report

Tuesday, April 19, 1994

Prices were unchanged under a generally steady but cautious trade sentiment. Buying activity was mixed as higher asking prices discouraged sales. Raw mater-

ials were usually more than adequate for current processing schedules. Floor stocks were in good balance to satisfy current needs.

National Egg Market

Wednesday, April 20, 1994

NATIONAL EGG MARKET-AT A GLANCE: Prices were unchanged to lower on all sizes in the Northeast, generally unchanged elsewhere. The market tone was barely steady to weak. Demand was fair to good where featured and into food service channels, only light to fair elsewhere. Supplies were adequate to ample with light weight eggs in the best balance. Breaking stock supplies were at least adequate for the mostly moderate demand, and prices were lower. Light type hen offerings remained at least adequate for the limited demand, and the trade sentiment remained barely steady to about steady.
