RICHARDTON — A Step Ahead For Farmers...

The new 700 series wagon diagonal slide system allows truck drivers close access to the dump wagon and reaches out to put loads in the center of the box. And the 45-degree dump angle makes this wagon self-cleaning.

Two models with rugged frames are built to handle either 750 cu. ft. or 1,000 cu. ft. loads.

The wide undercarriage and low profile lower the center of gravity for greater stability on hilly fields.

An adjustable offset hitch is standard to match row crop spacings and the vented roof allows straight-through air flow. Richardton double-reinforced boxes are built to handle up to 30,000 lb. loads with ease.
