U-TUBE LAMP & SUPPLIES

"...the biggest advantage of these lamps is the economic savings over the life of the bulb. Once the initial investment is paid back, which will be done in less than six months, the increased electrical economy make such bulbs the most logical way to light..." MICHAEL J. BIG HUSKY

When it says BIG HUSKY its gotta mean quality

The Big Husky top adjustment feeders take all the abuse hogs can dish out. The top adjustment is easy to set and stays set.

Tapered hopper is interlocked then riveted together for strong construction made from 18 ga. steel. No danger of coming apart as spot welded construction. No thin spots as spun tapered hopper. The design must be good since our competition copied it. We don't spin our hopper. When you spin metal you get weak points. This is a critical area since the hogs
