

SILO BOOSTER®

GET MORE MILEAGE FROM YOUR SILAGE

**A Concentrated Blend of
Lactic Acid Producing Bacteria**

- **PEDIOCOCCUS ACIDILACTICI -**
- **LACTOBACILLUS PLANTARUM -**
- **STREPTOCOCCUS FAECIUM -**

SILO-BOOSTER® Can Boost Your Benefits

Once you make **SILO-BOOSTER** part of your management program, the benefits will make you wonder why you didn't use **SILO-BOOSTER** sooner.

- Maximum fermentation rate and lactic acid production to lower pH quickly and preserve more nutrients.
- Outcompetes spoilage organisms including yeasts, molds and clostridia.
- Compatible with currently used application equipment
- Greater dry matter recovery and protein retention.
- Higher intakes and better animal performance.
- No harm to humans, livestock or machinery.
- Available in dry or soluble form.

Whenever possible, use a metering device to evenly distribute the product on the crop. Following proper use recommendations will deliver 100,000 CFU's of lactic acid producing bacteria per gram of forage and 200,000 CFU's of lactic acid producing bacteria per gram of high moisture grain.
