DEFEND AGAINST WEEDS

3400 Series Toolbar Rotary Hoe

The only good weed is a dead weed, and the Weed-it Family is your first defense. Our Rotary Hoes and Cultivators reduce herbicide costs while shattering crust and aerating the soil at high speeds. Protect your fields

Rhino disc mowers feature an easy access outerbar. The innovative design of the outerbar allows access to the disc spindle shaft and gear module without disassembly of the entire outerbar, reducing maintenance costs and downtime. The hardened rock guards are designed to help protect the entire leading edge of the outerbar from damage and, along with the skid shoes, are easily replaceable. A heavy duty CAT-11 & Cat-II offset three-point hitch made of 4 1/2" thick-wall tubing, is standard to provide dependable service. A safety breakaway system is built in to provide mainframe protection against sudden impacts when mowing. With 5' of blade overlap and blade tip speed of 15,814 FPM, Rhino disc mowers provide a clean, smooth cut. Rugged construction and high performance are two reasons Rhino disc mowers are the ideal choice for fast, efficient grass mowing.

**RDM
 DISC
 MOWERS**

IN STOCK

The innovative design of the outerbar allows easier access to the disc spindle shaft and gear compared to some competitive units. The gears run in an enclosed oil bath for constant lubrication. The blades are reversible and easily replaceable for lower maintenance costs and minimal downtime.

The new Rhino RDM Series Disc Mower is designed for faster, efficient mowing of grass pastures and hay meadows and offers features not found on many competitive units.

The outerbar can be easily raised to the transport position hydraulically from the tractor seat. A parking stand is standard for easier unit storage and "hook-up".
