## Northeast Chicken Parts

Wednesday, June 1, 1994

Trucklot buying interest was quite irregular and ranged very cautious to fairly good. Supplies of boneless skinless breasts with tenders were in close balance with a good demand for both immediate needs and for next week deliveries. Trading was at current prices but the undertone was firm. Whole breasts were readily available at most shipping points; offered at lower prices; and slow to clear. Buyers were very selective and also very cautious. The undertone was weak and unsettled. Dark meat items and wings were well cleared to a good call at steady prices and the trade sentiment was steady.
