ROTARY 3 PT. DISC MOWERS IN STOCK RHINO AND GEHL BRANDS

GET ONE NOW!

Rhino disc mowers feature an easy access outerbar. The innovative design of the outerbar allows access to the disc spindle shaft and gear module without disassembly of the entire outerbar, reducing maintenance costs and downtime. The hardened rock guards are designed to help protect the entire leading edge of the outerbar from damage and, along with the skid shoes, are easily replaceable. A heavy duty CAT II & Cat II offset three-point hitch made of 4"x6" thick-wall tubing is standard to provide dependable service. A safety breakaway system is built in to provide mainframe protection against sudden impacts when mowing. With 5" of blade overlap and blade tip speed of 15,814 FPM, Rhino disc mowers provide a clean, smooth cut. Rugged construction and high performance are two reasons Rhino disc mowers are the ideal choice for fast, efficient grass mowing.
