VALLEY FRESH FOODS

RELIES ON THE

Big Dutchman.

CHAIN

FEEDING SYSTEM

Valley Fresh Foods' complexes in Turlock, California, Townsend, Montana; Woodburn, Oregon, and Rochester, Washington house 2.5 million birds, with several houses of Big Dutchman Cage Systems

Joe Arias, President of Valley Fresh Foods, Inc. believes his decision to use Big Dutchman Cage Systems with Chain Feeding is right on the money. Mr. Arias has been changing over to Big Dutchman for several years and has plans to continue to equip future houses with Big Dutchman systems. The bottom line, he says, "is that Big Dutchman's chain feeding system promotes better management flexibility that equates to higher profits."

Arias chose the Big Dutchman chain system because it handles the feed capacities he needs for his high bird density houses. It is easy to adjust the amount of feed and feeding schedule as needed when making feed formulation changes. It all adds up to more eggs and better feed conversion.

The computer print-outs from the current test* in Turlock, California, confirm to Mr. Arias his decision to go with Big Dutchman Chain Feeding provides him with *more* eggs, *better* feed conversion and *fewer* undergrades than drag auger feeding.

*Test house contains both the Big Dutchman chain feeding system and Chore-Time's drag auger system. It houses sister birds and other parameters that are equal
