

Dairy Recipe Extravaganza

(Continued from Page B19)

DAIRY RECIPE

16 ounces plain yogurt
1 small package sugar-free instant pudding
20-ounce can crushed pineapples, plus juice
Mix all three items together until well mixed
Chill and serve.

We are married 40 years. I raised five children. All are married. We have five grandchildren with another due in August. I am active in St. Paul's UCC in Bowmansville, Clubmaster of Brecknock Cub Scout Pack 34 plus all area of Cub Scouts in Eastern District 4 of Lancaster-Lebanon Council. I drive the school bus for Garden Spot High School and Brecknock Elementary School in Bowmansville. I also sell Avon products. I was playbround director for two weeks in Bowmansville. I enjoy scrap crafts and cooking. I try a lot of the recipes in Lancaster Farming. And since both my husband, Earl, and myself are diabetics, I try regular sugar recipes and work it out with sweeteners.

Alta M. Hoshour
Bowmansville

FRESH STRAWBERRY ICE CREAM

3 eggs
1/2 cup flour
3 cups sugar
1/2 teaspoon salt
3 quarts half-and-half
4 teaspoons vanilla
6 cups fresh ripe strawberries
Blend eggs, flour, sugar, salt, and three cups of half-and-half in blender. Cook in double boiler until mixture starts to thicken. Chill. While mixture is chilling, chop strawberries in blender. Add vanilla, strawberries, and remaining half-and-half to chilled custard. Freeze in 6-quart ice cream freezer.

I'm grateful to Lancaster Farming and "Home on the Range" for the fine recipes you have provided throughout the years. It is interesting to try new recipes.

Joann Frazier Hensley
McGaheysville, Va.

Are You Robbing Your Forages Of Valuable Nutrients?

Protect Your Forage Investment With SILO SYM

"Your Forage Guardian"

- a natural product containing no harmful chemicals or aids
- allows you to bale hay at up to 28% moisture and still maintain safe storage conditions
- a definite hedge against bad weather
- reduce nutrient losses which occur during harvesting and storage
- enhances forage palatability
- non-toxic to livestock
- higher feeding value, due to less leaf loss
- non-corrosive to equipment
- easily applied with Gandy Applicator
- helps ensiled crops to retain a higher percentage of the original dry matter, energy and other nutrients
- really works on square or round baled hay, haylage, corn silage and high moisture grains
