

Apply For Liquid Fuels Tax Refunds

Lancaster Farming, Saturday, June 11, 1994-C3

HARRISBURG (Dauphin Co.) — State officials are urging farmers to apply for refunds on taxes paid on liquid fuels that were purchased for use in agricultural production.

Specifically, the upcoming refund is for taxes paid on fuel purchased anytime from July 1, 1993 to June 30 1994.

While farmers pay the 12-cents

per gallon when purchasing the fuel, even though they are exempt for paying the tax, they have to apply and request that the money be returned.

And though records are necessary, and should be available through the fuel dealer, in order to make the claim, the process is not difficult.

But according to a news release

from the state Treasury Department, not many are asking for their money back. According to Pennsylvania Treasurer Catherine Baker Knoll, "... about 40,000 farmers did not even apply for refunds. Please take the time to fill out the ... claim form. It takes only a couple minutes, but it could mean money in your pocket."

That 40,000 farmers who did

not submit is out of the 51,000 estimate farmers in Pennsylvania, all of whom may have used liquid fuels for some reason in agricultural production.

From a straight statistical analysis, that means only about 20 percent of those potentially due refunds are actually making a request, according to the state data.

Last year those who applied received an average refund of \$183.

Farmers who have in the past registered a claim for the liquid fuels tax refund with the Treasury Department Board of Finance and

Revenue are to automatically receive a notice and an application for this year's refund.

According to Lynne Vergot, supervisor with the Board of Finance and Revenue, those notices are to be mailed June 17.

Others have to seek out the application, but it only takes a phone call, or a letter, according to the news releases.

Those with questions or wishing to register for the refund program should call the Board of Finance and Revenue at (717) 787-6534, or write to the board at: Room 500C, Finance Building, Harrisburg, 17120.

5100 Forage Boxes

- Independent feathering clutches for metering augers and outfeed
- 4-speed transmission operates in a sealed oil bath
- Wide body and crop clear roof
- Unitized high strength steel box on all 5100 models assures dependability and long life

The 5100 Box is computer designed for best strength to weight ratio and low center of gravity.

High-strength steel bolster adjusts to fit any running gear.

4-Speed shift-under-load gear transmission operates in an enclosed oil bath for long life.

Optional Miller Pro Running Gear

• Choice of models from 10 - 14 tons • Automotive-type steering • C-Channel design for best stability and tracking

Front & Rear Unload Forage Box

- Positive mechanical 2-direction drive
- Easy direction change by simply moving a drive coupler
- Super slippery Poly-clad floor

Rear Unload Forage Box

- 30-second mechanical unloading
- Unobstructed unloading with high rear door hinges
- Automatic rear door

Hydraulic High Lift Dump Boxes

- Great for forage crops or grain
- 800 or 1100 cubic foot models
- Low loading height
- 11 foot dumping clearance
- One minute unloading
- Cart models available

Model 1100 Rotary Rake

- Exclusive hydraulic raking height adjustment
- 11 tine arms gently lift and release crop with no roping and minimum leaf loss
- Rakes fluffy windrows for less drying time
- Rakes 10'-6" swath for 13'-5" working width
- Fully enclosed oil bath gearbox
- Swath curtain bolted to steel frame

High Clearance, Minimum Till Row Crop Cultivators

- 4-row, 6-row, 8-row & 12-row models
- Easy adjustment & maintenance
- 25" crop clearance
- Maximum gang stability
- Hydraulic fold
- Efficient soil penetration
- Accurate depth control
