**CLAAS® Rollant round balers give you what you want**

**—one quality round bale after another.**

Discover Quality...Discover Value...

The **Rollant 66** makes fast work of 4'x5' bales. Its unique two-stage pick-up and close tines produce a clean, efficient harvest in less time. Rollatex netting wraps a bale in 10 seconds or less, and double-twine wraps it up in just 20.

The **Rollant 46** introduced CLAAS's innovative fixed bale chamber to the marketplace. This versatile baler handles all farm operations from dry hay to silage. Nobody produces a better 4'x4' bale.

The **Rollant 42** was designed for family livestock operations. This economical investment produces weather-tight 4'x4' bales for the highest nutrient content possible.

CLAAS bales mean nutrient-filled edible hay, low spoilage, and high crude protein retention.

Each **Rollant** offers the innovative chamber, low-profile pick-up, and world class dependability. And they all share CLAAS's international reputation for low maintenance, durability and long-life.

Call now to see how you can improve the round figures on your bottom line.

**Proven Performers**

The company that introduced the first self-propelled combine is still first with the features, performance and value you want. Intensive Separation System. Dynamic Hillside Compensation System. Turret unloading auger. Perkins Quadram engine. And much more.
