

# Recipe

(Continued from Page B20)

## CHEESE PIE

- 1 pint cottage cheese, whipped
- 8-ounces cream cheese
- 1 heaping cup sugar
- 3 tablespoons cornstarch
- 3 eggs, separated
- 12-ounce can evaporated milk
- 2 cups milk

Beat egg yolks and both kinds of cheese. Add sugar and cornstarch and beat until smooth. Add the evaporated milk and regular milk.

Beat white of eggs, forming soft peaks. Fold into above mixture. Pour into unbaked pie shells. Bake 50 minutes at 350 degrees or until done. Makes two deep 9-inch pies.

*I am 15 years old and enjoy cooking and baking. We like this recipe that my great-grandmother gave.*

*My dad is a hoof-trimmer for dairy cows. We also have a greenhouse where we raise about 50 calves. I have three brothers and our job is to help with the calves.*

LOU ANN GOOD

Lancaster Farming Staff  
LITITZ (Lancaster Co.)

Some use their talents for themselves or family or friends, but Rosene Hollinger donates her talent for a cause she believes in — Christian schooling.

The wife of Ken Hollinger and the mother of two sons, Rosene spent weeks capturing the beauty of one of the county's oldest farms on canvas. The 27x36-inch painting shows the farm with freshly-fallen snow.

"I enjoy painting snow scenes because snow lends itself so nicely to watercolor," Rosene said.

The watercolor will be auctioned during the benefit auction for the Lititz Area Mennonite School held June 24 and 25.

Rosene said that she donated the painting to the school because her two sons attend it.

The Hollingers live near to the Royer Farm, and Rosene often admired its beauty. The farm had been in the Royer family for seven generations. Ada Royer was the last of the descendants to live in the house that was built in the 1800s. In January 1992, the farm was subdivided with 107 acres sold to a neighboring farmer Earl and Grace Martin. The house and other

Artist Rosene Hollinger displays the oil painting of the Royer Farm, which will go to the highest bidder during the Lititz Area Mennonite School Benefit Auction on June 25.

farm buildings with 10 acres was purchased by a New Jersey family and is being restored.

Rosene has always enjoyed art and dabbled in it, but did not do anything seriously until after high school when she did oil paintings

of Indian children who she worked with on an Indian Reservation. She took both oil and watercolor classes and has exhibited her work at a local hospital and an art show.

In the past eight years, Rosene has concentrated on raising her

family and has painted only a little until this year when she did several paintings.

"It feels good to be doing more, and I hope to continue it," said Rosene, who prefers to paint local scenes and what she calls buildings

**You Ask ? ? ?**  
**? ? ? You Answer**

In response to readers' questions, this column is for readers who have questions but don't know who to ask for the answers. In the past, many readers sent non-cooking requests to Cook's Question Corner, a cooking column on page B 8.

"You Ask — You Answer" is for non-cooking questions. The concept is the same: When a reader sends in a question, it will be printed in the paper. Readers who know the answer are asked to respond by mailing the answer, which will then be printed in the paper.

Questions and answers to this column should be addressed to You Ask — You Answer, Lou Ann Good, P.O. Box 609, Ephrata, PA 17522.

**QUESTION** — A. Nolt of New Holland would like to know the words to the complete poem that was recited in the 1920s when her father-in-law went to school. The poem contains these lines. The carpenter's house is falling down. The preacher's kids are the worse in town.... Since this request appeared, Theresa Litecky, Eastampton, N.J., and several others have written to say they remember parts of this poem and can hardly wait to see the complete poem. Any readers who remember the complete poem, please send it immediately

**QUESTION** — Marie Lorah, Box 299 R.D. 3, Tamaqua, Pa. 18252, is looking for water glasses with pictures of owls on them

**QUESTION** — Romaine B. Answell, Sumerdale, would like to know who manufactured the Webalco electric skillet.

**QUESTION** — A York County reader would like to know how to clean aluminum storm doors or enclosures that are becoming pitted

**QUESTION** — A reader would like to know where you can send for a catalog featuring vinyl doll heads, arms, and legs. she wants to make her own dolls.

**QUESTION** — Charles E Wright, Duncannon, purchased a 13-inch parlor stove made of iron with the following marks. On the front spark inside is written Gray Iron Casting Co., Mt. Joy, Pa. On the inside top door 75-11; on the poker 7517 The doors, drafts, etc., would like a full-sized stove. Is this company still in business?

**QUESTION** — A reader from Thornton writes that families of Canadian geese have taken residence in their pond. How can the geese be encouraged to leave the pond?

## JOHN DEERE SQUARE BALERS

# Packed with consistency, bale after bale

Here's a performance you'll like repeated again and again in your fields: solid, stackable square bales that hold in feed quality.

How do John Deere square balers do it? For starters, the low-profile pickup rides close to the ground to gather in more hay. And narrow-channel strippers help save leaves and short material. Once the hay's in the baler, it gets packed solid as a unique design pre-compresses hay inside a tapered chamber. Feeder forks then fold the compressed hay into the baling chamber — delivering solid bales that stay together.

You can also count on a long, trouble-free life from your John Deere baler. Compared to others, John Deere balers are just plain beefier. Heavy-duty bale cases and a heavy, side-mounted fly wheel — plus simple John Deere design and fewer moving parts — mean season after season of beautiful bales.

To turn your next hay crop into solid, square bales that stack like bricks, pick up a rock-solid John Deere baler.
