Prevent Piglet Crushing

with the

MODEL 90 Farrowing CRATE

Constructed from heavy gauge materials, this crate is designed to reduce crushing with sow comfort in mind. The bowed bottom bars make for a comfortable 33" crate width when the sow lays down, yet the adjustable anti-crush bars eliminate the sow from carelessly dropping on the piglets. This movement restriction does not hamper the sow as lays down, or wants to stand up, as the bars slide up and out of her way.
