

Forest Workshop Set

DALEVILLE (Lackawanna Co.) — There will be a Forest Stewardship Workshop for Landowners on July 31 from 1:30 p.m. to 5 p.m. at the Covington Fire Company on Rt. 502 near Daleville.

the Forest Stewardship Program, followed by a walking tour of a forest stewardship demonstration area in Lackawanna State Forest.

Fee for the workshop is \$5, which includes transportation to the tour site from the Covington Fire Company, written materials, and refreshments. Checks should be made payable to Penn State

University and mailed to Forest Resources Extension, Attn. Alison Hiller, Pennsylvania State University, 110 Ferguson Building, University Park, PA 16802-4300. For more information, call Alison Hiller in State College at (814) 863-0401, Tony Santoli in Scranton at (717) 963-4561, or Vinnie Cotrone in Wilkes Barre at (717) 825-1701.

The workshop will include a brief introduction to forest ecology, management practices, and

Who's Drying Up The Creek?

(Continued from Page A30)

cleanse water as well. The result is that subsequent incidents of toxic conditions can have an increasing and extended impact.

While the water issue is only expected to increase in importance, since adequate water is essential for life, how it will be resolved depends on the actions of people within the basin.

The amount and level of support for a rational, well-thought-out approach to dealing with the problem depends on the level of public

education, financial support, and the goals and strengths of differing political and profit-making agendas.

In the meantime, Wertz said he expects problems to continue, but he doesn't have the full answer, just one for each individual concerned: "The water in our streams belong to all the citizens of the commonwealth," Wertz said. "So we do have an inherent responsibility to maintaining that resource for all residents of the state, when you are a (water) user."
