

Juniata County Crowns

(Continued from Page B12)

In her very first public speech, Missy told the crowd that she has been around cattle ever since she was small. She started 4-H at age 8 and started showing cattle at 9. The main theme of her talk was the dedication of the American dairy farmer.

She spoke of the wholesomeness of dairy products that furnish nutrients needed by the body. She challenged her listeners by suggesting that the next time they walk into the grocery store and pick up a gallon of milk and a pound of cheese, they should remember that they would not have those high-quality products to enjoy if it were not for the 365-day-a-year work and dedication of the farmers.

In addition to her speech, Melissa presented a skit titled, "Milk From the Cow To the Table." On the table before her, she had a small replica of a cow and of electric milkers, explaining the importance of cleaning the

cow's teats before and after milking, and how the milk goes from the cow to the tank where it is cooled and then hauled away in a tank truck to be pasteurized and processed.

Missy's court is made up of dairy maids Tar Kocher, Danielle Mummah, and Ronda Mummah; dairy miss Sara Hower; and little miss Jada Faulkner.

Also attending the program in support of the dairy princess and to speak to the crowd were David Noss of RD, Port Royal, vice-chairman of the National Dairy Board, and Juniata County Holstein Club President Ronald Mummah. Bill Peoples, from the board which selects farms for the Dairy of Distinction awards, was present to give the award to Ronald and Desiree Mummah of RD, Port Royal, and Harold and Janet Shearer of RR, West Waterford.

Also present was Wanda Yoder of Belleville, central coordinator for the Pennsylvania Dairy Princess and Promotion Services.

Juniata County Dairy Princess Melissa Kay Mummah with her parents, Lanny and Deborah, and brother Danny.

DIESEL FUEL USERS... Help Prevent Low Sulfur Fuel Problems

Use **FPPF** Fuel Treatments

With Every Fill Up.

FUEL POWER

- #1 Year 'Round Additive
- Totally Disperses Water
- Lubricates Entire Injection System
- Cleans & Decarbonizes Injection System
- Prevents Algae Growth
- Provides Greater Power, More MPG.

LUBRICITY PLUS

- Increases Lubricity of Today's Low Sulfur Fuels.
- Prevents Fuel Injection System Wear Due To Low Lubricity In Diesel Fuel
- Prevents Stalling.
- For Premium Diesel Fuel - We Recommend a Combination of Fuel Power and Lubricity Plus
