### JUNE PART DEPT SPECIAL DICKEY-John HARVEST-HAND Portable Grain Moisture Tester

Harvest-Hand measures the mois-  
ture content of your grain automati-  
cally. It weighs the sample and auto-  
matically compensates for grain  
temperature. Just turn the unit ON,  
select the desired grain, and slowly  
pour your grain into the test cell. The  
measurement cycle begins automati-  
cally when the proper weight of  
grain has entered the cell. Read the  
direct temperature-compensated  
moisture content when display stops  
flashing.

- Direct readings for these 12 grains:
